

Summarize and Visualize Quiz Results

You can use the [Table Filter and Charts](#) for Confluence add-on to filter, summarize and visualize quiz results, as well as [export a quiz results report](#) into CSV, PDF, Word.

Table Filter and Charts provides a set of three macros:

- [Table Filter](#) - to filter data
- [Pivot Table](#) - to summarize data
- [Chart from Table](#) - to create graphs and charts from table data

You can use these macros on:

- a quiz administration page
- a page you've created to share quiz results with others
- a page that serves as a quiz dashboard

See some examples below.
