Courses and Quizzes - LMS for Confluence Demo

Courses and Quizzes - LMS for Confluence allows you to **create courses and quizzes in Confluence** and enroll *anyone*, both Confluence and anonymous users. It doesn't require any integrations and works out of the box.

Use cases:

- Employee and customer education – training courses, tests, compliance, certification
- Evaluating knowledge and skills of job applicants and employees
- Onboarding of new hires
- Tests on product knowledge for customers and partners
