

Handy Cards

Appealing cards instead of a boring list of pages

It's always important to draw attention to relevant information. The [Handy Cards macro](#) allows you to preview your Confluence pages on the main one allowing other users to easily browse between multiple pages.

Create a bright page menu in a couple of clicks by selecting content from the top of a page automatically or spend time by designing the cards' content manually.

Cards for child pages with automatic content

Don't hesitate, switch to the page editor and try to play with cards' configuration. Switch from 'Top of the page' to 'The Excerpt macro' content source.
